

# VIVEKANAND EDUCATION SOCIETY'S Institute of Technology

## AI for Good

Mentor: Mrs. Anjali Yeole

Group members: Soham.Mukesh.Shetty, Gaurav Malpedi, Arpit burley , Niharika Bulani

## Crowd Detection

Using AI we have created a program to detect number of humans while using computer vision

INTRO

The Webpage created successfully Detects the number of human visible in the Livestream and gives the count

RESULTS

To Give the count of the crowd and avoid crowd disaster like stampede

PROBLEM  
STATEMENT

Python (flask)  
Opencv  
(Computer vision)  
Dataset (haracasscade)
